

People who are talking war forget the burying grounds at Antietam and Gettysburg, the widows and orphans of the North and South, the immense public debt and the horrors of warfare generally. The Republican party in the early days of the Nation, to which the Democratic party is the natural successor, was anti-English, and favored the war of 1812 and opposed other peaceful solutions of international questions, but we believe that the present administration will not be purely Jeffersonian in this particular.

WESTBROOK'S SOLDIERS

We append a list of soldiers who went to the front from the present limits of Westbrook. After 25 years have elapsed it is impossible that some errors should not occur. The Adj. Gen.'s reports, of course, credit the Deering soldiers to Westbrook, and some of the names given here may belong to Deering. Many well-known citizens who were soldiers and who take a prominent part in Grand Army affairs went from other towns and therefore their names do not appear here.
